

How to Earn \$200 with less than 2 hours a week of fooling around on your computer!

[Swagbucks](#) is a website that gives you points for different things and you can redeem those points for 100's of items. My favorite is the \$5 Amazon Credit. I had \$100 this year and my goal for next year is \$200. Each \$5 Amazon credit is 450 points so in order to get \$200, I need 18,000 points. Here is how I'm going to do it in less than 2 hours a week...

7 pts: I have downloaded the [Swagbucks](#) toolbar and I get 1 point a day for having that installed. (0 minutes)

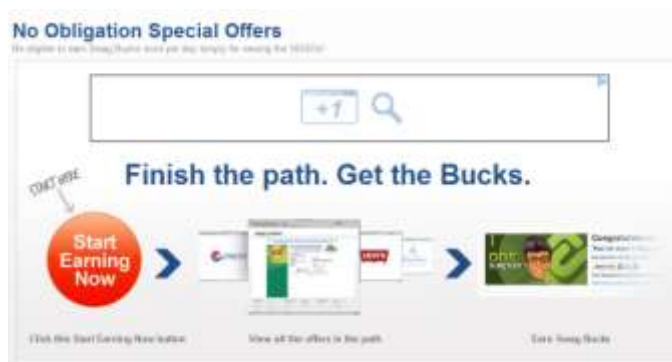

50 pts: I will use the search option on the [Swagbucks](#) toolbar instead of Google. Every so often when you search you get [Swagbucks](#). I usually get anywhere from 7-18 a day and I do this M-F. (0 minutes, I use it instead of Google)

5 pts: I take the poll M-F and get 1 point. (1 minute M-F)

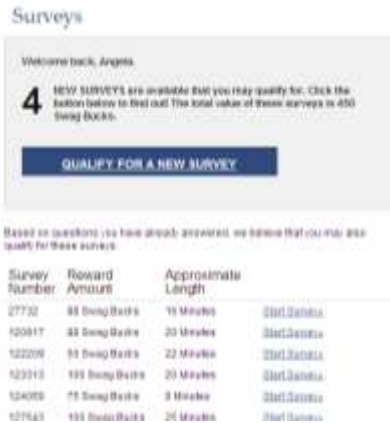

10 pts: I go through the NOSO offers just skipping all of them to the end and I earn 2 points M-F. (3 minutes M-F)

80 pts: I will use AT LEAST 8 coupons per week. [Swagbucks](#) has coupon.com right on their website so you can print coupons and you can earn 10 points for each coupon redeemed. You can still log into [Swagbucks](#) on different computers and print 2 more coupons. So I will print at least 1 coupon 8 times during 1 week. (0 minutes, I use this instead of coupons.com)

200 pts: I will do surveys watching TV and will get anywhere from 25-200 points per survey. I will usually do the 10 min surveys for 25 points or 20 min for 50 points. I find I have better luck getting accepted for those surveys. (80 minutes)

TOTAL PTS= 352 * 52 weeks = 18304

TOTAL TIME= 1 hour and 40 minutes

I have added referral links in this post for [Swagbucks](#). I will get bonus points for everyone I refer and will continue your help is MUCH appreciated!!!
